Narratives**Areas of Greatest Need:**

Data provided by HUD allows Redford Township to identify areas with a high percentage of foreclosures. The HUD model, estimated count of foreclosure starts over 18 months through June 2008 and is divided by estimated number of mortgages times 100. This data was calculated at Census Tract level. Redford Township's foreclosure rate percentage is highest in areas north of Seven Mile Road, South of Seven Mile Road (east of Beech Daly Road) and in the southeast portion of the Township. All of these areas posted a foreclosure rate of 11.6 percent to 14.1 percent. Research was done through the Redford Township Assessor to identify addresses that were on file with the Township as foreclosed homes. Over 400 foreclosures were identified and mapped. According to the Township Assessor data the areas with the highest inventory of foreclosures are the same as stated in the above paragraph. The assessment, developed by HUD, provides a score for each Census Block Group from 1 to 10, where 1 indicates that HUD data suggest a very low risk and a 10 suggests a very high risk for foreclosure and abandonment. Using HUD's Foreclosure and Abandonment Risk Scoring System, the Township identified the areas of greatest need that will likely face a significant rise in the rate of home foreclosures Redford Township is at high risk of foreclosure throughout the Township. According to HUD data the Township is comprised of 10 and 9 risk scores. Again, high risk areas are north of Seven Mile Road, South of Seven Mile Road (east of Beech Daly Road to Five Mile Road) and in the southeast portion of the Township. The remaining areas of the Township all posted 9 risk scores. Nearly 1,000 vacant structures were identified throughout the Township by our Building Department in 2008. The data identifies that Census Tracts 5541, 5542, 5543, 5545, and 5551 have the highest inventory of vacant/abandoned structures. These Census Tracts are mainly concentrated in the northern portion of the Township with Census Tract 5551 being the exception. It has been concluded that the following areas have been hardest hit and can be labeled "Areas of Greatest Need": * Northern Redford Township (Census Tract 5541, 5542, 5543, and 5544) * Central Redford Township (Census Tract 5545 and 5548) * Southern Redford Township (Census Tract 5551, 5553, and 5554)

Distribution and and Uses of Funds:

Redford Township will use its allocation of Neighborhood Stabilization Program funds (\$3,041,364.00) to administer, acquire, demolish, rehabilitate, redevelop, offer homebuyer assistance and market said properties to income eligible persons that are at or below 50% AMI and persons that are 51%-120% AMI. All NSP funded activities/properties will be located in the "Areas of Greatest Need" as determined by our research data as previously submitted in our NSP Substantial Amendment.

Overall Progress Narrative:

The Redford Township Stabilizing Neighborhood Action Plan (SNAP) Program has made significant strides in the redevelopment of our residential neighborhoods. Utilizing HUD Neighborhood Stabilization Program (NSP) funds, we have invested our resources in the demolition and rehabilitation of properties throughout our Areas of Greatest Need as defined in our NSP Plan.

NSP dollars has been obligated for the demolition of eighteen residential properties to date (14 projects have been completed). The majority of vacant sites are being offered/sold to the abutting property owners. This will establish additional "green space" for the neighborhoods.

Rehabilitation of existing properties, owned by Redford Township, are in various redevelopment stages. Nineteen (19) homes have been completed to date and eleven (11) of the homes were sold in 2010 to eligible LMMI and LI homebuyers. Three (3) of the redeveloped homes are currently awaiting new owners and are listed with real estate

agents at this time (Multiple Listing Service - MLS). There are also ten (10) homes in the rehabilitation stage and should be completed in the coming months (pending weather delays). General contractors and sub-contractors have been used for the redevelopment of each property creating job opportunities for multiple building/construction trades in the local area. Numerous temporary part-time employment (PTE) was created for individuals that performed work on the NSP homes. Due to the fact that Redford Township is acting as the project manager, we are making available multiple contracts to businesses throughout the region.

Redford Township has also contracted with three NSP Developers to acquire, rehabilitate and sell residential properties that are approved by Township staff. The developers are following the same criteria that is being used by Redford Township and it is anticipated that a minimum of seven residential properties will be rehabilitated/sold to income eligible homeowners. One of the developers (Home Renewal Systems) has a sale pending to a LMMI homebuyer and is in the process of completing this redeveloped property. The other two developers, are working on their respective properties and anticipate to be completed in Summer-Fall 2011.

In addition, Redford Township entered into an agreement with Habitat for Humanity of Western Wayne to construct another new home on a property on which vacant/blighted structures were previously demolished using NSP funds. Habitat should break ground in August and be completed by November 2011 with the receipt of a Certificate of Occupancy.

A waiting list of potential homebuyers has been compiled by Redford Township staff and SNAP Program information/applications have been mailed to all interested parties. There have been over 400 families/individuals who have applied for the SNAP program, with 30 applicants being pre-approved for a home mortgage through a certified FHA lender/financial institution over the course of the program to date. Twenty-one (21) new homeowners have taken ownership of their newly redeveloped homes located throughout Redford Township. Four (4) LI homebuyer applicants have been approved for the SNAP Program and are awaiting the completion of their respective homes that they have entered into Agreements for. These individuals should close on their respective properties in Summer-Fall 2011. The home sales have generated over \$1.2 million in Program Income for the SNAP Program, which allows Redford Township to further continue our SNAP Program efforts to fight the foreclosure crisis that has crippled our community. Downpayment assistance/costs have been made available to all homebuyers who qualify and housing counseling is provided as mandated by the program.

The SNAP Program has accomplished much in its short existence and has experienced great success to date. This is an exciting time for our community, showing our residents that their government dollars are being successfully distributed to fuel an economic recovery in the housing industry. We look forward to the continued

Activity Description:

This activity will provide the general administration and planning activities required to receive NSP funding and implement a successful NSP program, including preparation of the substantial amendment, required noticing, monitoring, financial reporting and other required administrative tasks.

Location Description:

Not Applicable.

Activity Progress Narrative:

The following duties have been accomplished by our staff within this reporting period: property disposition, site evaluations/inspections, project management, contractor payments for completed work and DRGR draws. In addition, we have completed a small advertising campaign to market our SNAP Program within our community and the surrounding areas. Our intention is to stimulate interest in the program and make the potential homebuyer aware of the possibility of homeownership within our community. This campaign has generated many inquiries about the program and provided us with a stream of potential applicants.

Activity Description:

Funding will be allocated for the rehabilitation of foreclosed, abandoned or vacant properties with the intent to sell the properties to those that meet the income eligibility requirements. Redford Township will solicit, through an application process, for organizations and partners to participate in the redevelopment of vacant, abandoned or foreclosed properties. Redford Township will have oversight in the process. Redford Township will not be undertaking any rental housing projects with NSP funding. Funding will be used to benefit income eligible residents to qualify as homeowners

Location Description:

Various neighborhoods located in Redford Township - NSP Target Areas (Areas of Greatest Need as defined in Substantial Amendment II - dated March 2, 2010).

Activity Progress Narrative:

The following SNAP properties were sold this reporting period: 14406 Fenton sold on 5/16/2011 and 12916 Fenton sold on 5/23/2011 (PI receipted for both properties on 5/26/2011) -and- 10030 Virgil sold on 6/1/2011 (PI receipted on 6/1/2011).

Redford Township is rehabilitating multiple homes using NSP funds for this activity (Rehab-LI). The homes are being brought up to current building codes and energy efficient standards by multiple contractors/trades (generals, mechanical, electrical, plumbing, insulation, etc). The rehabilitated properties are in various stages of construction. The rehabilitated homes are being reviewed by perspective buyers and we anticipate the sale of additional LI homes in the next reporting period. At that time, we will be able to define the homebuyer as LI or LMMI. Once the transaction is complete, we will enter the specific project address in the correct activity for that reporting period.
