

Redford Township Police Department  
Eyes on Redford  
Camera Registration

The Redford Township Police Department “Eyes on Redford” program is a voluntary program where Redford residents share home security video with RTPD. In the event of an incident, an officer or detective will reach out to a resident who participates in the program and will request that the resident review their footage for activity during a specified time, or allow RTPD personnel to review footage. This video footage may be used to assist in the investigation of an incident, identifying suspects, or for use during court proceedings. Video footage will **GREATLY** assist in the investigations of criminal activity within Redford Township. Membership in this program will remain confidential within the RTPD. Only camera systems that have recorded video footage will be included in the Eyes on Redford.
