“Never doubt that a small group of thoughtful, committed, citizens can change the world. Indeed, it is the only thing that ever has.”

~ Margaret Mead

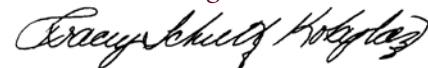

Redford Township residents have a longstanding tradition of community involvement. We volunteer on school committees, neighborhood associations and watch programs. We enroll our children in our wonderful schools, classes, dancing and team sport programs that are available in the township too. As the seasons change we enjoy community events like Oktoberfest and Old Fashioned Holidays. In the little free left, more than 100 of your neighbors are serving on one of 22 boards and commission. An additional 29 neighbors are currently serving you as School Trustees, Park Commissioners, Township Trustees and in the House of Representatives.

Indeed, we have a long standing tradition of community involvement. If you want to change the world, I invite you to start locally ~ get involved in one of the many, many programs or events that are available to you and your family. Redford Township is indeed a great place to live, work, play and learn!

Water discoloration occurs when there is a main break or a hydrant is opened. Sediments in the lines are stirred up and require several hours to settle. Do not use your hot water until you are sure the water is clear, as this will draw the sediments into your hot water tank and may stain your laundry. Instead, periodically run a cold water faucet at the lowest point in your house (usually the basement) for 3-5 minutes until the cold water is running clear. If discoloration continues call the **Water Department (313) 387-2670**.

Water or Sewer Bills (delinquency or high use): **Water & Sewer Department: (313) 387-2670**

Avoid potential shutoff for non-payment when we start the shutoff program every Spring by contacting us now for details.

We also have suggestions on how to check for undetected water leaks inside your home that may be increasing your water bills.

Failure to follow these guidelines may result in your refuse, recycling, yard waste or large/bulky items not being picked up.

REFUSE MUST BE IN A WATERTIGHT CAN WITH LID & OUTSIDE HANDLES OR IN A TIED REFUSE BAG. Residents must supply their own cans & bags which may not exceed 35 gallon capacity size & must not weigh more than 45 pounds when filled. There is not a limit for yard waste

SET OUT REFUSE CANS, BAGS, RECYCLABLES, YARD WASTE & LARGE OR BULKY ITEMS no earlier than 6pm the night before collection or no later than 6am the morning of collection.

SET REFUSE CONTAINERS, RECYCLE BINS & YARD WASTE ADJACENT TO THE STREET next to the driveway but not in the street. Set refuse 5 feet away from yard waste or recycling. All containers must be removed from the curb the evening of your collection day or you may receive an ordinance violation ticket.

ITEMS NOT COLLECTED FOR DISPOSAL INCLUDE: auto parts, tires, building or demo materials, contractor's debris, concrete, bricks, dirt, dead animals or hazardous materials (paint, chemicals, fluorescent bulbs, etc). Redford Township / Republic Services Of SE MI

Have you cleaned the leaves out of your ditch or off the storm drains in your street?

The Water & Sewer Department reminds residents that the storm drains, catch basins and ditches must be kept clean, especially when the trees begin to lose their leaves in the fall. Your assistance in keeping the storm drains and ditches clean will also prevent flooding of neighborhood streets during heavy rains and snow melt periods. Also, any water that flows into the storm drains and ditches goes thru the storm water system underneath the Township and then directly (untreated) into the local Rouge River.

If you witness an illicit discharge into the storm water system, contact the Wayne County Dept. of Environment's 24 hour Hotline at (888) 223-2363 or the Redford Water & Sewer Dept. at (313) 387-2670.

Why do we flush the fire hydrants every fall?

As part of an annual maintenance program, the Fire Department flushes fire hydrants in a different section of the Township every year during the months of September & October (weekdays only). Information on specific areas where flushing will occur will be posted in the "Redford Observer" newspaper, on Brighthouse Channel 8, WOW Channel 10, AT&T U-verse Channel 99 and the Township website at www.redfordtwp.com. Maintenance is performed to insure proper pressure at each hydrant and to determine whether a repair may be needed.

Water customers may experience discolored water when your area is being flushed (or during a water main break). During this time period your water service may be affected even when hydrants are being flushed several blocks away. The discoloration does not affect the water quality and is a result of stirred up sediments in the water mains. It may take several hours for the stirred up sediments to clear. Do not run your hot water during this time as this will draw the discolored water into your hot water tank and may stain your clothes if you are doing laundry. Instead, periodically run a cold water faucet at the lowest point in your house for 3-5 minutes. If the water is still discolored, wait 1-2 hours and then try running the cold water again to see if it is clear. Prolonged problems should be reported to the Water Department by calling (313) 387-2670.

How long after a snowfall must sidewalks be cleared?

The occupant of every lot or parcel of land adjoining any sidewalk (or the owner of such lot or parcel of land if unoccupied) is responsible for clearing ice or snow from sidewalks within 24 hours of its accumulation for commercial districts and within 72 hours for residential districts. Owners found in violation will be ticketed for the first violation and each subsequent violation thereafter. Complaints regarding snow or ice covered walks may be reported to the Building & Ordinance Department at the "Pride Hotline" (313) 387-2604 or by sending an email to pride@redfordtwp.com. We must have the address of the violation, as well as your name and phone number should we need to contact you for additional information.

Is the meter reading box on the outside of your home easily accessible for our meter readers?

Residents and business owners are asked to keep the snow or ice cleared from the area surrounding your water meter reading box on the outside of your home or business so that Water Department meter readers have safe access during the winter months. If you are not able to safely get to the reading box, neither can our employees and it may result in your water bill being estimated.

Do you have water lines or a water meter in your home in unheated areas during the winter?

Unheated areas are usually a crawl space, attic, garage or basement. In the kitchen or bathroom areas you may need to open cabinet doors to allow warmer air to circulate around the pipes or meter. If you go away for the winter months leave the heat on in your home and do not set it any lower than 55°F. Repairs to frozen and burst pipes can be very costly and will greatly increase your water bill if water continues to flow because of burst pipes. If your water meter freezes due to being in an unheated area or because you have turned off your heat you are responsible for the cost of having it replaced. Also remember to drain and turn off the water to your outdoor water spigots or lawn sprinkling system.

Have you ever noticed water bubbling up out of the ground or running down the street along a curbed area?

There may be a water main break, especially during winter months when pipes in the ground shift because of freeze and thaw cycles. Contact the Water & Sewer Department at (313) 387-2670 Monday thru Friday 8:30am to 4:30pm to report a possible main break and its location. After office hours or on the weekends contact the Police Department at (313) 387-2500.

Why is my drinking water sometimes cloudy?

At various times of the year we receive calls from residents wanting to know why their water is cloudy when first taken from a faucet and then clears up. Cloudy water occurs most often in the fall and winter months when the ground temperatures change and water is colder. The cloudiness is caused by tiny air bubbles in the water similar to the gas bubbles in beer and carbonated soft drinks. If you let the water sit for a while, you will notice that the bubbles rise to the top and dissipate.

Do you have a vacant home on your block?

During the winter months it is possible for water pipes in the vacant home to freeze and burst if water is still on at the home and it is unheated. Also, a water meter in an unheated area may freeze and burst if it has not been winterized. If you suspect there is a home in your area that is unheated or if you see water running out a window or door of the home write down the address and call the Water & Sewer Department at (313) 387-2670 Monday thru Friday, 8:30am - 4:30pm or contact the Police Department after hours or on weekends at (313) 387-2500. In addition, if you have a vacant home where the exterior of the property is not being maintained (high grass, weeds, debris) report it to the Building & Ordinance Department on the "Pride Hotline" (313) 387-2604 or by sending an email to pride@redfordtwp.com. Provide us with the address of the violation, as well as your name and phone number should we need to contact you for additional information.

Because we will run four elections in one year (not a record) citizens could be easily confused that elections are all we do in the Clerk's Office. To the contrary, we continue to provide our day to day services during election season, which seems to be year-long. Some of these services include, garage sale permits, business licenses, notaries, voter registration, absentee ballot applications and general information. Check the directory for your area of concern.
