

CHRISTMAS TREES will be picked up on your regular garbage day thru the week of January 30th.

Please note that trees over 7 feet in height may be required to be cut down by residents in order to fit into the front loading bucket of Republic Waste's garbage trucks. Also please be aware that many of the drivers will take the Christmas tree at the same time your garbage is picked up; however, some of the drivers prefer to pick up the garbage first and then come back for just the Christmas trees.
